

Multiaxial Classification of Child and Adolescent Psychiatric Disorders: The ICD-10 Classification of Mental and Behavioural Disorders in Children and

By World Health Organisation

Cambridge University Press. Paperback. Book Condition: New. Paperback. 312 pages. Dimensions: 9.1in. x 5.9in. x 1.0in. In making a diagnosis, individual psychiatrists inevitably accord differing importance to various features in a patient's history. By regulating the order and number of conditions to be recorded, a multiaxial framework provides for internationally comparable descriptions of mental state. This volume provides the psychiatric sections of ICD-10 in a form that is adapted for ease of use by those dealing with mental disorders in childhood and adolescence. Descriptions have been grouped into axes that have been chosen to provide unambiguous information of maximum clinical usefulness in the greatest number of cases. Building on the popular original framework of four axes, the system has been greatly improved by the inclusion of a new axis for psychosocial situations and by the addition of yet another axis on adaptive level that enables clinicians to code an individual's current level of disability. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

Good eBook and useful one. It is amongst the most remarkable ebook I actually have studied. You can expect to like the way the article writer publishes this pdf.

-- Prof. Armand Senger DVM

Absolutely essential go through book. It can be really fascinating through studying period of time. You won't truly feel monotony at any time of your respective time (that's what catalogues are for concerning in the event you question me).

-- Roberto Leannon
