The ActionScript language is becoming an increasingly vital part of every Flash designer's toolkit, but it can seem like a scary prospect for the non-programmer. We'll show you how easy it is to create interesting, interactive movies in Flash MX through visual metaphors and worked examples. The aim is to get you up to speed quickly, giving you the skills you need to add extra functionality and control to your Flash movies. By the time you're finished, you should have a good grasp of the core ActionScript concepts and techniques, and plenty of ideas for your own projects. No previous programming experience is required, just a familiarity with the Flash MX interface, and even the most code-phobic reader should find the learning curve to be smooth and easy. 300 pp. Deutsch.
