This should be done in a warm room free from dust. The varnish is put on with a large brush, boldly, rapidly, and evenly. If the article is to have a polished appearance, two coats of varnish will answer, but three or four varnishings will be needed to give it a dull finish. The rubbing down is done with the finest pulverized pumice-stone, mixed with water to make it about the thickness of cream, and rubbed on with a piece of rag. The rubbing must continue till all inequalities disapx-ar and the surface is as smooth as glass. It has then to be dried with a cloth and polished again with tripoli and sweet oil. After drying a second time with soft...
