Walker & Company. Hardcover. Book Condition: New. Hardcover. 192 pages. Dimensions: 8.1in. x 6.9in. x 0.8in. From the author of *The Joy of Pi* and *The Flying Book*, an engaging new guide to the amazing unseen world around us. How can we understand the world of the atom or the size of our galaxy? How do we grasp a billionth of a second or a billion years; the freezing point of helium or the heat generated by the blast of an atomic bomb? *Spectrums* answers these questions and many more by exploring realms we are familiar with in our daily lives, but whose extremes boggle the mind and inspire a sense of wonder. With relish and insight, Blatner re-introduces us to six fundamental spectrums in the world around us: numbers, size, light, sound, heat, and time. Offering fascinating glimpses of hidden realities, full of comparisons, facts, and anecdotes, and illustrated by a wealth of diagrams, photographs, and sidebars, *Spectrums* illuminates the full range of the bizarre and beautiful world in which we live. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
